UNIBIN CONTAINERS

Tradebe offers an easy solution for the disposal of oily waste solids – the UNIbin.

We offer three sizes to fit your needs. The UNIbin system leaves the hassle of proper storage, transportation and recycling to us. Your problem is solved with our compact, on-site collection bins that can handle all your oily, non-hazardous solids. The UNIbin is ideal for oily absorbents, oily rags, oily cardboard, oily sludges and floor sweepings. The UNIbin is safe, liquid-tight and convenient. It meets or exceeds environmental regulations.

UNIBIN ... a convenient and easy way to dispose of oily, non-hazardous solid waste

Eliminate drum costs with Tradebe's UNIBIN ... the convenient, versatile, secure way to dispose of all your non-hazardous solid waste.

The UNIbin is ideal for oily absorbents, oily rags, oily cardboard, oily sludges and floor sweepings.

The UNIbin from Tradebe, no matter the size, is safe, liquid-tight and convenient. It meets or exceeds environmental regulations. On a regular schedule, Tradebe will empty our client's UNIbin — leaving our customers more time to focus on the production and profitability of their business.

The UNIbin is available in three convenient sizes.

SMALL

33" L x 33" W x 36" H

MEDIUM

60" L x 33" W x 36" H

LARGE

60" L x 43" W x 36" H

UNIbin containers are a convenient and economical way to dispose of your non-hazardous waste. They are a simple solution to today's solid non-hazardous waste disposal challenges and an economical, environmentally sound alternative to drums. UNIbins are ideal for soils, powders, grinding dust,

metal shavings, sludge waste streams, odorous materials, industrial filter cake, oily rags and clothing, contaminated personal protection, sorbents, debris and used oil filters.

NOTE: UNIbin is not for hazardous wastes, liquids, sludges from water or industrial treatment operations (unless pre-qualified), or special wastes (asbestos, biomedical, tires, PCBs, etc.)

Tradebe will design a waste collection program that can be tailored to fit the unique needs of customers no matter the industry or location.

Tradebe operates a fleet of DOT approved vehicles specially equipped to handle UNIbin waste.

On a convenient schedule, we will empty your UNIbin using one of our specially designed trucks and transport the waste to one of our regulated collection facilities where it will be disposed of in accordance with all applicable local and federal guidelines.

The UNIbin is a convenient and proven system that minimizes your waste management costs.

Oily Non-hazardous Solids ... Problem Solved.
